# REQUIREMENTS

## PC AND HEADSET

The CADAC Digital Training is compatible with:

1. Windows 10
2. MAC

The Virtual Reality Hardware that is actually compatible with CADAC is:

1. Windows Mixed Reality Headset (HP, Acer, Lenovo)

*Other Headset not listed above could still work but lead to unexpected behaviour.*

## HARDWARE

The minimum requirements for CADAC to work properly are:

| NO VR | WITH VR |
|---|---|
| 1. Intel Core I3 or similar | 1. Intel Core I7 or similar |
| 2. 4GB RAM | 2. 8GB RAM |
| 3. DirectX12 | 3. DirectX12 |
| 4. AMD Radeon M7 or similar | 4. Nvidia GeForce 1060 or similar |

***PC with requirements lower than the one listed above may lead to unexpected behaviour or low performances of the product.***

# INSTALLATION - WINDOWS

Once you have downloaded the file from the dedicated link, you have to extract the package with the zip software you prefer.

| Nome | Ultima modifica | Tipo | Dimensione |
|------|-----------------|------|-----------|
| 📁 CADAC_Data | 07/10/2021 10:26 | Cartella di file | |
| 📁 MonoBleedingEdge | 07/10/2021 10:26 | Cartella di file | |
| 🅒 CADAC | 06/10/2021 17:40 | Applicazione | 639 KB |
| UnityCrashHandler64 | 06/10/2021 17:40 | Applicazione | 1.222 KB |
| UnityPlayer.dll | 06/10/2021 17:40 | Estensione dell'ap... | 27.464 KB |

Double-click the CADAC application to run it.

# INSTALLATION - WINDOWS

If Windows will complain about the unknown origin of the Software,
what you'll need to do is:

**Windows protected your PC**

Microsoft Defender SmartScreen prevented an unrecognized app from
starting. Running this app might put your PC at risk.

More info

Don't run
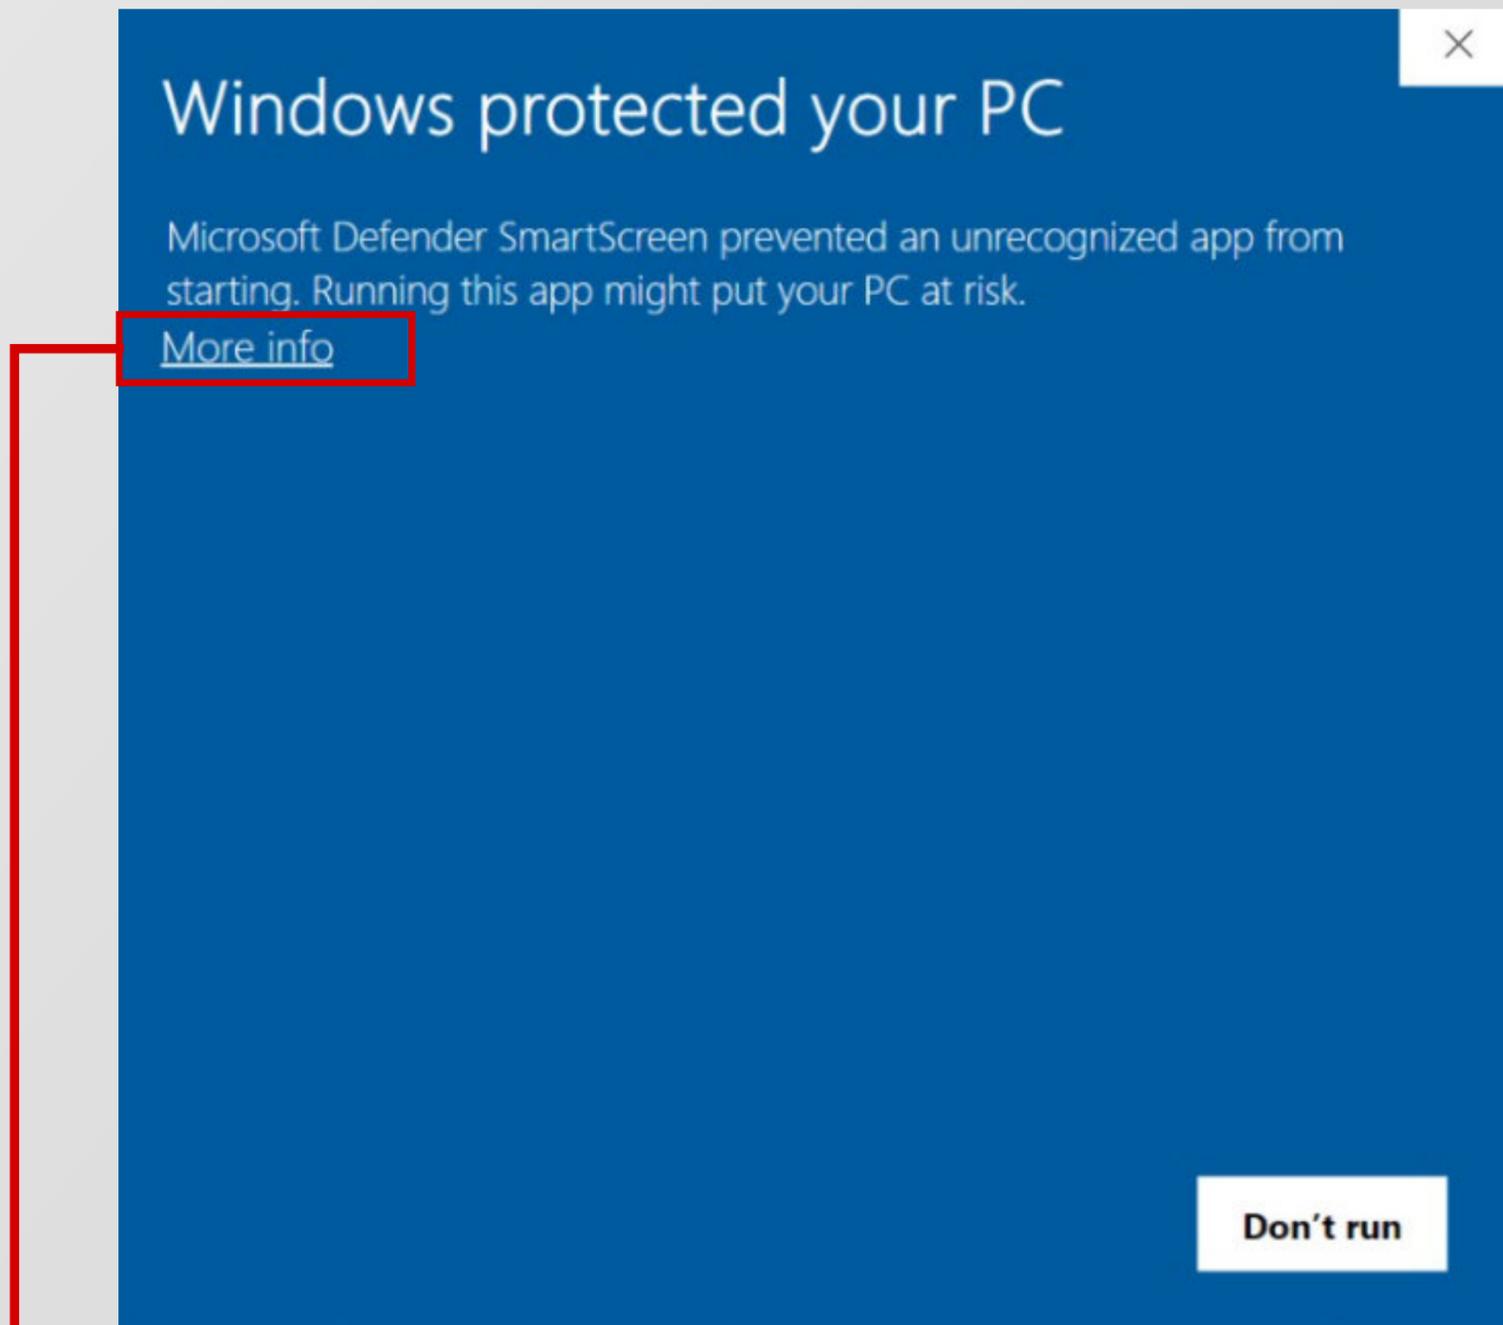

Click "More info" and then "Run anyway"

Run anyway     Don't run

# INSTALLATION - MAC

On MAC probably you will occur in this screen:

To overcome this issue, you'll have to:

1. Press "Ctrl" on the keyboard
2. Select "Open" from the Menu
3. From now on, the Software will open normally.

# ABOUT THE CADAC

The CADAC procedure is a series of action performed by the Fire Fighters during an emergency in order to evaluate the situation so that he/she can take the right decision and request the right help.

In this Software we focus only on the first three action:

## 1. Understand phase (Constatare)

The Fire Fighter must analyse the overall situation and find all the possible dangers or problems.

## 2. Evaluate phase (Apprezzare)

The Fire Fighter must say if the situation is going to get worse (Arrow Up), get better (Arrow down), or stay the same way (Equal symbol).

# ABOUT THE CADAC

## 3. Decision phase (Decidere)

The Fire Fighter must take the right decision depending on the evaluation he/her has mode prior to this phase.
